

# Election to the ESF Board of Governors

## **John CHEUNG**

I am excited to present myself as a candidate for the school board, driven by my passion for education and commitment to our community. With over two decades of experience as an educator at respected institutions like ESF and HKIS, I have developed a strong appreciation in promoting cultural diversity and inclusivity. I understand that our diverse community consists of parents with varying expectations, and I am dedicated to addressing those needs while fostering a collaborative environment.

My career path has taken me from a frontline educator to the role of founding principal. This journey has provided me with a comprehensive understanding of the educational system and the challenges we face. I believe that effective teaching goes beyond the curriculum; it involves creating a dynamic and engaging atmosphere where students can thrive. My goal has always been to make students' learning and development enjoyable and accessible, ensuring that every student feels excited about their life journey.

As a parent of a child (WIS now!!!) who has been learning at ESF since kindergarten, I have witnessed first-hand the positive impact of our foundation's mission and its commitment to lead every student to a happy and successful life. My experience at ESF, both as an educator and a parent, has deepened my understanding of what makes our schools special.

I am eager to bring my experience, insights, and dedication to the school board, advocating for our students and supporting initiatives that enhance their educational experience. Together, we can create an even more vibrant and inclusive learning environment, ensuring that every child has the opportunity to succeed and flourish. Thank you for considering my candidacy.
