### **Personal Statement for ESF Board of Governors Election**

As a dedicated lawyer and a father of two joyful girls currently attending ESF junior schools, I am eager to stand for election to the ESF Board of Governors with a view to becoming more involved in and significantly contributing to the ESF community.

With over a decade of experience practicing laws in major international law firms and multinational financial institutions, I am well versed in corporate and commercial transactions, corporate administration and governance as well as legal and regulatory compliance matters. My professional background has endowed me with a profound understanding of legal and regulatory compliance, corporate and assets administration, governance and oversight. These are all vital to fulfilling the responsibilities of the ESF Board of Governors as the principal governing body, which is tasked with managing ESF's affairs, maintaining its education standards and administering its property portfolio.

My candidacy for the ESF Board of Governors is driven by a commitment to ensure that our children continue to receive the highest education standards and the ESF schools continue to be managed effectively and efficiently, thereby accomplishing its vision and mission – bringing out the best in our children.

Witnessing the growth of my two girls in their early years of childhood, I have directly experienced the transformative power of education and understood the pivotal role that school governance plays in shaping students' academic development and, perhaps more importantly, preserving their well-being and finest qualities.

As a parent, I have a personal stake in the success of the ESF schools and if elected, as a parent member, I pledge to be a proactive member of the ESF Board of Governors, bringing a balanced perspective that merges professional acumen with parents' insight and understanding. With your support, I will strive to bring my expertise and contribute meaningfully to the ESF Board of Governors, ensuring the continued success of our ESF schools and serving as a representative of the ESF families.

I sincerely ask for your support in this important endeavor. Thank you for considering my candidacy.

Yours sincerely,

Andy Tam
